

Ahead ActionBoard Facts at your fingertips. Always.

Experience a new way to stay in the know of your elevators and escalators' status and performance. At all times. Ahead ActionBoard is designed to bring clarity and convenience for building owners and managers grappling with the day-to-day tasks of maintaining the equipment. Built on the IoT platform, ActionBoard collates all the relevant statistics, activities and performance data, and displays them in a simple, easy-to-understand manner.

Central platform

Ahead ActionBoard is a complete information platform that provides up-to-date overview of elevators and escalators' activities under your care. It offers real-time and actionable insights, making it easier to prioritize tasks – whether routine statistics, performance-checks, data-exchange or planning maintenance. With a clear overview, issues can be detected much faster, making it easier to prevent interruptions and ensure better planning of service schedules.

Quick access

Ahead ActionBoard can be accessed online or via the dedicated App on hand-held devices. Essential information is always available along with push-notifications to keep you informed even while you're not on-site. Customers handling a large portfolio of equipment, will find this tool immensely helpful in ensuring reliable operations, allocating resources and keeping all stakeholders informed – to achieve higher customer satisfaction.
